
Is It Covered by Insurance?

Coverage depends on your specific plan and services. Here's a quick guide:

- **Rehabilitation: Physical Therapy, OT, Speech** (including pelvic rehab and dry needling): Typically covered with a physician's referral or script. The Dry Needling code may not be covered by your insurance. If it is not, we can offer a charge of \$10 for one muscle group or \$20 for >2 muscle groups when Dry Needling is added to your rehab visit.
- **Acupuncture:** Increasingly covered for pain and other conditions—call your plan to confirm. We strive to offer competitive rates for this service and we can offer a discount if you combine services.
- **Nurse Practitioner, Nutrition, and Social Work Services:** Often covered as part of integrative care.
- **Sound Therapy** and some mind-body services: May be considered wellness-based and not covered.

We are happy to verify your benefits and explain your options before you begin care.
